

Cirque Mechanics “42ft – A Menagerie of Mechanical Marvels”

January 21, 2020

Button

1. Decorate inside the circle and cut it out
2. Start with shallow circle facing you
3. Place shell (smooth side up) in the shallow circle of machine, then place design on the shell (right side up), then clear plastic on top of design.
4. Then swivel shallow circle under press and pull the lever towards you
5. Swivel deep circle towards you
6. Place pin back (curvy side up) in the deep circle of the machine, curvy side facing you
7. Press onto back

[Trapeze Artist](#)

Supplies

- String
- Paper Straws
- Trapeze artists paper cutouts

Instructions

1. Grab a trapeze artist cutout and decorate it
2. Put the string through the straw
3. Tape the trapeze artist to the straw, by their hands, feet, knees, or anyway you'd like!
4. Swing your trapeze artist and make them do tricks!

Juggling Balls

- We will have an area where they can test their juggling skills. These will already be made, so it will be more of a hands-on activity to practice and compete with friends to see who can juggle the best or longest.
